Incomplete higher

2023 — **Moscow Aviation Institute (National Research University), Moscow**
Faculty No. 8 "Information Technologies and Applied Mathematics" ("Applied Mathematics and Physics"), Fundamental computer science and information technology

Electronic certificates

2022 — HackerRank C#
HackerRank Problem Solving

Key skills

Languages

Russian — Native
English — B2 — Upper Intermediate

Skills

C# Git ООП MS SQL Entity Framework Linux ASP.NET
Atlassian Jira .NET Core Docker Teamplayer RabbitMQ Redis
Grafana Prometheus WPF LINQ MVC

Further information

About me

In recent years, I have been studying without the opportunity to work.

In parallel with my studies: I solve problems on Leetcode, Codewars, Codeforces, with a group of students I develop games on the Unity engine.
Worked with MS SQL databases in pure form and using the ORM Entity Framework.
Installed Win/Linux with the second system.
Worked with application containerization, wrote docker-compose files.
Worked in development environments: MS Visual Studio 2019, VS Code, Rider 2022.

Resume updated 22 July 2022 at 08:57

My latest projects:

— Cryptography — https://github.com/DeoEsor/Cryptography_Messenger
A library of cryptographic primitives and a desktop messenger based on them.
Technology stack: C#, ASP.NET , WPF, EF.

— Graph Theory – https://github.com/DeoEsor/GraphTheory
A library for working with graphs and a desktop client for visualization.
Technology stack: C#, WPF.

— Online Cinema – https://github.com/DeoEsor/OnlineCinema
An online cinema application with a desktop client on WPF.
Technology stack: C#, ASP.NET , EF, WPF, React.js, HTML, CSS.

Hobbies: sports, books.
